شرح درس

**objectives : To enable the students to learn about the basic rules in grammar and how to read and memorize the new vocabulary.**

هدف کلی درس

**The aim of the textbooks taught was to make the students familiar with the basic words.**

**The activities in "4000 Essential English Words" are specially designed to make use of important learning conditions. Firstly, the words are introduced using sentence definitions and an example sentence. The activities that follow in the units encourage learners to recall the meanings and forms of the words. Some activities also make the learners think about the meaning of the words in the context of a sentence—a sentence different from the sentences that occurred in the introduction of the words. Moreover, each unit ends with a story containing the target words. While reading the story, the learners have to recall the meanings of the words and suit them to the context of the story. Such activities help learners develop a better understanding of a common meaning for a given word which fits the different uses.**

**Basic Grammar in Use Fifth Edition is an American English reference and practice book for beginner level learners (A1-B1). With simple explanations, clear examples, and easy to understand exercises, it is perfect for students who need extra help with English grammar. This**

version includes an answer key for the exercises, so is ideal for use in the classroom.
